Reiki

What is Reiki?

Reiki, Japanese for universal life-energy

The word consists of two characters:

rei

cosmic, universal energy

ki

fundamental life force

How does Reiki works?

according to the reiki-philosophy exist everything from energy.

- ❖ that energy is everywhere around us**
- ❖ a feeding impact on body, spirit and emotional life**
- ❖ a shortage of life-energy creates a larger sensitivity for sickness and slow down convalescence**

What does reiki do?

One of the first things that Reiki does, is to start the 'itself healing capacity'.

Reiki helps you too take good care of yourself.

Reiki is give and take.

Given at the reciver throug the hand.

The donator is only the chanel, the energy is not from him personaly.

Reiki support de reciver for what's important at the moment:

- ❖ That can be healing of the physical body
- ❖ Our change the thoughts that make us sick

**Reiki never works at the symptoms,
but always at the holistic body.**
